

### Transfer Credits

Graduate Courses taken previously at PPGQ will be automatically used, respecting the current regulation ([Resolution 10/2017](#)).

In order to transfer credits taken in other Chemistry Post Graduation Programs the student should do the following procedure:

- Send to the PPGQ's Office the Transfer Credit Form, electronically filled out and signed, with the transcript and signed course syllabus. We would like to highlight that courses taken at other Post Graduation Programs at UFRGS the transcript is not needed.
- For each course, you should file one request, with a Transfer Credit Form, transcript and signed syllabus. Requests that do not follow this pattern will not be received by the PPGQ Office.
